+1 (581) 997-5834

EDUCATION

M.S. in Electrical Engineering 2021-2023
Université Laval, Québec
Thesis : Deep single image depth of field estimation
Supervisor : Jean-François Lalonde (Université Laval)
Co-supervisor : Yannick Hold-Geoffroy (Adobe Research)
GPA : 4.33/4.33

B.S. in Engineering Physics 2017-2021
Université Laval, Québec
GPA : 4.21/4.33

EXPERIENCE

Research Intern - Computer Vision 2023
Adobe, 3DI Tech Transfer Team, San Francisco, CA
Supervisors : J Eisenman, Yannick Hold-Geoffroy

- Benchmarking machine learning methods developed by the research department
- Fine-tuning, optimizing and converting models for production
- Facilitating the integration of machine learning methods into products

Teaching Assistant - Computational Photography 2023
Université Laval, Québec
Course : GIF-7105 Computational photography

- Answering students' questions in person and on the forum
- Grading homework and exams

Research Scientist Intern - Computer Vision 2022
Adobe Reseach, San Jose, CA (remote)
Supervisors : Yannick Hold-Geoffroy, Jianming Zhang, Jean-François Lalonde

- Generating a dataset of images with a realistic synthetic depth of field effect
- Training a neural network to estimate camera parameters related to the depth of field
- Writing a scientific paper (ICCV)

Research Assistant - Computer Vision and Artificial Intelligence 2020-2021
Institute Intelligence and Data (IID), Université Laval, Québec
Supervisors : Jean-François Lalonde and Yannick Hold-Geoffroy

- Training a neural network to estimate camera parameters from a single image
- Evaluating the network's performance using a perceptual measure
- Writing a scientific paper (TPAMI)

Research Intern - Computer Vision and Artificial Intelligence 2020
Institute Intelligence and Data (IID), Université Laval, Québec
Supervisors : Jean-François Lalonde and Yannick Hold-Geoffroy

- Generating a dataset of images containing inserted virtual objects using Blender
- Conducting a user study to measure humans' perception to errors in camera calibration
- Participating in the redaction of a scientific paper (TPAMI)

Research Assistant - Medical Physics 2019-2020
Medical Physics Research Group (GRPM), Université Laval, Québec
Supervisor : Luc Beaulieu

- Participating in the design of a robot to assist medical staff in ultrasound guided brachytherapy
- Calibrating and testing the robot in preparation for clinical use

Research Intern - Medical Physics 2019
Medical Physics Research Group (GRPM), Université Laval, Québec
Supervisors : Luc Beaulieu and Philippe Després

- Adapting a robotic arm for dosimetry using 3D printing
- Designing and documenting a python module to control an industrial 6 DOF robotic arm
- Collecting dosimetry data with the robot that is used to train machine learning algorithms
- Analyzing and presenting the data, in a report and in a poster at the Journée scientifique des étudiants

SCHOLARSHIPS

- **NSERC Canada Graduate Scholarships - Master's** 2021
  For academic excellence and research potential *17500*$
- **FRQNT Québec Graduate Scholarships - Master's** 2021
  For academic excellence and research potential *35000*$
- **NSERC Undergraduate Student Research Awards** 2020
  For academic excellence *4500*$
- **FRQNT Supplements of the Undergraduate Student Research Awards** 2020
  For academic excellence *1500*$
- **NSERC Undergraduate Student Research Awards** 2019
  For academic excellence *4500*$
- **FRQNT Supplements of the Undergraduate Student Research Awards** 2019
  For academic excellence *2000*$
- **Hydro-Québec Entrance Scholarship** 2017
  For academic excellence *3000*$
- **Franco Rasetti Entrance Scholarship** 2017
  For academic excellence *1500*$
- **Desjardins Foundation Scholarship** 2016
  For academic excellence and community engagement *1000*$
